An Interactive Engineering Adventure You Choose

Embark on an Epic Engineering Quest!

Are you ready for an engineering adventure like no other? In this interactive book, you'll take on the role of a young engineer and embark on a series of thrilling challenges that will test your ingenuity and problem-solving skills.

Building the Great Wall of China: An Interactive Engineering Adventure (You Choose: Engineering

Marvels)by Allison Lassieur★ ★ ★ ★ 5 out of 5Language: EnglishFile size: 16415 KBText-to-Speech: EnabledScreen Reader: SupportedEnhanced typesetting : EnabledWord Wise: EnabledPrint length: 112 pages

With each choice you make, you'll determine the course of your journey. Will you build a bridge that spans a raging river, design a rocket that reaches for the stars, or create a machine that harnesses the power of nature?

Along the way, you'll learn about real-world engineering concepts, such as:

Structural engineering

- Mechanical engineering
- Electrical engineering
- Renewable energy
- And much more!

Perfect for Kids and Adults of All Ages

Whether you're a budding engineer or an adult who loves a good challenge, this book is sure to entertain and educate.

With its engaging story, interactive puzzles, and real-world engineering concepts, this book is the perfect way to ignite a passion for STEM in kids and adults alike.
