Andrew Parker

Nationalisms Sexualities: Explorations in the Cultural Politics of Identity is a groundbreaking work that explores the complex relationship between nationalism and sexuality. Andrew Parker argues that nationalism is not simply a political ideology, but also a cultural and emotional force that shapes our understanding of ourselves and our place in the world.

Parker draws on a wide range of examples from around the world to show how nationalism has been used to justify both the oppression and liberation of sexual minorities. He examines the ways in which nationalism has been used to construct and define national identities, and how these identities have been used to exclude or marginalize those who do not conform to heterosexual norms.

Parker also explores the ways in which sexual minorities have resisted and challenged nationalist ideologies. He argues that the struggle for sexual liberation is often a struggle against nationalism, and that the two are often inextricably linked.

Nationalisms Sexualities is a major contribution to the study of nationalism and sexuality. It is a must-read for anyone interested in the ways in which these two forces have shaped our world.

Reviews

"Andrew Parker's **Nationalisms Sexualities** is a brilliant and provocative book that challenges conventional wisdom about the relationship between nationalism and sexuality. Parker argues that nationalism is not simply a political ideology, but also a cultural and emotional force that shapes our understanding of ourselves and our place in the world. He draws on a wide range of examples from around the world to show how nationalism has been used to justify both the oppression and liberation of sexual minorities. Parker's book is a must-read for anyone interested in the ways in which these two forces have shaped our world."

- Michael Warner, author of *The Trouble with Normal*

"Andrew Parker's **Nationalisms Sexualities** is a major contribution to the study of nationalism and sexuality. Parker provides a nuanced and sophisticated analysis of the complex relationship between these two forces, drawing on a wide range of examples from around the world. Parker's book is a must-read for anyone interested in the ways in which nationalism and sexuality have shaped our world."

- **Judith Butler, author of *Gender Trouble***
