In this groundbreaking book, investigative journalist and author G. Edward Griffin exposes the shocking truth behind the United Nations' Agenda 21 and the global climate change scam.

With meticulous research and eye-opening evidence, Griffin reveals how a cabal of global elites is using these initiatives to manipulate public opinion, silence dissenting voices, and consolidate their power over the world's population.

Griffin shows how Agenda 21 is a blueprint for global governance that would give the United Nations sweeping powers over every aspect of our lives, from our land use to our energy consumption to our food production. He also exposes the scientific fraud behind the global climate change scare, showing how the data has been manipulated and the evidence cherry-picked to create a false sense of urgency.

The Elite Charade of Changing the World is a must-read for anyone who wants to understand the real agenda behind the global governance movement. It is a powerful indictment of the global elite and a wake-up call for all who cherish freedom and sovereignty.
